

When			What			Who				
Date	Time		Time Spent (hours)	Task	Details	Name	Comments			
	Start	End								
Iteration 0 Starts - January 15th, 2016 (Bailey & Matt are out of town)										
1/15/2016	14:30	17:30	3 hours	Interview	- Set up all necessary equipments (camera, audio, ...) for the interview, co-interviewed customer	Paul				
					- Interviewed customer	Faye				
					- Co-interviewed customer + wrote down user stories	LAM				
					- Wrote vision statement	Paul				
			1 hour	Vision statement	- Edit the video	Paul				
			2 hours	Interview video	- Scanned and formatted all of user stories	LAM				
1/20/2016			1 hour	User stories						
Iteration 1 Starts - February 1st, 2016										
2/3/2016	2:30:00 PM	5:15:00 PM	2.75 hours	Setup Git	Resolved Git and build issues; Had members fork off of the main repo; Began merge testing	Matt				
2/10/2016	2:30:00 PM	5:30:00 PM	3 hours	Setup Git cnt'd	Continued setting up Git; Made Git path to proper area for VC; Had all members fork the repo;	Matt				
2/17/2016	2:30:00 AM	6:00:00 PM	3.75 hours	Resolved merge conflicts	Resolved merge conflicts; Added buttons for adding and deleting items(mipmap vs. drawable); All team members have upstream branches off of master; More Git discussions, using Git shell vs. Github for Windows vs. built-in Android studio	Matt				
			1 hour	Model	- Created models: TaskListManager, TaskList, TaskItem	Faye				
			3 hours	User Interface	- activity_task_list and list_item layout	XIRAN				
2/19/2016			4 hours	Database Model	- Added DB model/schema and addTask	Paul	See add-list-item on upstream for commits			
2/20/2016			6 hours	Database Model	- Model refinement, ArrayAdapter onboarding	Paul	Custom ArrayAdapter required for ListView			
2/21/2016			4 hours	Check-off Item	- give task item a checkbox	Bailey	working on local branch check_off_item			
2/21/2016			8 hours	Add-Item	- ArrayAdapter completed, add functionality completed	Paul	Work missing unit tests only at this point			
2/21/2016			4 hours	Delete-item	-delete task item from a database and a list	LAM	working on local branch lamdoan-delete-task-lits-item			
2/22/2016			4 hours	Testing		Matt				
Iteration 2 Starts - February 29th, 2016										
3/4/2016			8 hours	Add Task Fix	Add Task: clicking outside of the edittext fails to save	Paul	branch: task-item-add-fixes			
3/5/2016			3hours	Alarms	Research on alarms	Xiran				
3/9/2016			1 hour	Delete-item	Finalized removeTask() method	LAM	working on local branch lamdoan-delete-task-lits-item			
3/10/2016	7:30 PM	3:00 AM	7.5 hours	Add Alarm	Allowing user to add alarm for each task	Bailey	Researching and implementing alarms on local branch			
3/10/2016			8 hours	Alarms	Researched how to implementing alarms	LAM				
3/10/2016			1 hour	Delete-item	Finalized removeTask() method and got it to work -> Working for real this time	LAM	working on local branch lamdoan-delete-task-lits-item			
3/11/2016			6 hours	Priorities	Reaseached and implemented spinners on local branch	LAM				
3/11/2016	10:30 PM	3:00 AM	4.5 hours	Item Priorities	Changing priority ranking of an individual item	Bailey	Researching spinner objects for priority implementation			
3/11/2016			1 hour	Item Priorities	Draw user interface for Priority User Story	Faye				
3/11/2016	9:00 PM	4:00 AM	7 hours	Priorities	Implementing UI and Class for prirority spinner	Xiran				
3/12/2016	10:00 PM	4:00 AM	6 hours	Item Priorities	implementing spinner for item priorities	Bailey				
3/12/2016			4 hours	Priorities	Reaseached how to fix bug (The program will crash while editing task and clicking Delete task)	LAM				
3/12/2016			3 hours	Priorities DB	Structure and database implementation for priorities	Paul	Please see https://github.com/DotFreelance/To-Do-Bot/wiki/Paul-J:-Changelog			
3/13/2016			2 hours	Priorities	Trying to fix the resolution for the priorities pictures	Faye				
3/13/2016	3:00 PM	5:00 PM	2 hours	Item Priorities	Setting item piorities and organizing items based on priorites	Bailey				
3/13/2016			2 hours	Priorities cleanup	Priorities cleanup: fixed mipmaps for priorities, fixed bugs	Paul	Please see https://github.com/DotFreelance/To-Do-Bot/wiki/Paul-J:-Changelog			
3/14/2016			1.5 hours	Testing	Finished leftover testing from iteration 1	Matt				
Iteration 3 Starts - March 14th, 2016										
3/14/2016			1 hour	Priority Testing	Implemented testing for "Priority"	Faye & LAM				
3/16/2016			2 hours	Alarms	Set up basic alarms	Matt				
3/25/2016										
3/26/2016										
3/27/2016	6 hours per day				Created and fixed UI for iteration 3					
3/28/2016					Cleaned up some unnecessary codes					
3/29/2016	3 hours per day		24 hours	Iteration 3 Set up	Fixed and added some codes in order for it to work with the new UI					
					Added more columns into the database	LAM
